

Target Market Determination – Managed Accounts – MDA

IP DAA Program #1

Legal disclaimer

This Target Market Determination (TMD) is required under section 994B of the *Corporations Act 2001* (Cth) (**the Act**). It sets out the class of consumers for whom the product, including its key attributes, would likely be consistent with their likely objectives, financial situation and needs. In addition, the TMD outlines the triggers to review the target market and certain other information. It forms part of Implemented Portfolios Pty Limited's design and distribution arrangements for the product.

This document is **not** a product disclosure statement and is **not** a summary of the product features or terms of the product. This document does not take into account any person's individual objectives, financial situation or needs. Persons interested in acquiring this product should carefully read the Product Disclosure Statement, MDA Contract or other offer document for Implemented Portfolios Pty Limited's MDA Service before making a decision whether to invest through this product.

Important terms used in this TMD are defined in the TMD Definitions which supplement this document. Capitalised terms have the meaning given to them in the product's PDS/MDA Contract, unless otherwise defined. The PDS/MDA Contract can be obtained by contacting Implemented Portfolios Pty Limited.

Target Market Summary

This product is likely to be appropriate for a consumer primarily seeking consistent income distribution to be used as a standalone, core or satellite component within a portfolio where the consumer has a medium term investment timeframe, a conservative risk/return profile and needs limited short term access to capital.

Issuer	Implemented Portfolios Pty Limited
Issuer ABN	36 141 881 147
Issuer AFSL	345143

Model	IPL DAA Program #1
APIR Code	n/a
Date TMD approved	22 September 2021
TMD Version	1.0
TMD Status	Current
TMD end date	N/a

Description of Target Market

TMD indicator key

The Consumer Attributes for which the product is likely to be appropriate have been assessed using a red/amber/green rating methodology with appropriate colour coding:

In target market	Potentially in target market	Not considered in target market
------------------	------------------------------	---------------------------------

Instructions

In the tables below, Column 1, Consumer Attributes, indicates a description of the likely objectives, financial situation and needs of the class of consumers that are considering this product. Column 2, TMD indicator, indicates whether a customer meeting the attribute in column 1 is likely to be in the target market for this product.

Generally, a consumer is unlikely to be in the target market for the product if:

- **one or more** of their Consumer Attributes correspond to a **red** rating, or
- **three or more** of their Consumer Attributes correspond to an **amber** rating.

Definitions of terms are in the attachment or otherwise in the PDS/MDA Contract.

Investment products and diversification

A consumer (or class of consumer) may intend to hold a product or managed account as part of a diversified portfolio (typically with an intended product use of *satellite/small allocation* or *core component*). In such circumstances, the product or managed account should be assessed against the consumer's attributes for the

relevant portion of the portfolio, rather than the consumer's portfolio as a whole. For example, a consumer may seek to construct a conservative portfolio with a satellite/small allocation to growth assets. In this case, it may be likely that a product or managed account with a *High* or *Very High* risk/return profile is consistent with the consumer's objectives for that allocation notwithstanding that the risk/return profile of the consumer as a whole is *Low* or *Medium*. In making this assessment, distributors should consider all features of a product (including its key attributes).

Consumer Attributes [A description of the likely objectives, financial situation and needs of the class of consumers in the target market]	TMD Indicator for product	Product description including key attributes [A description of the product, including its key attributes, i.e., product terms, features and attributes that affect the TMD]
Consumer's investment objective	TMD Indicator for product	Product description including key attributes
Capital Growth	Amber	The product seeks to provide a consistent income distribution along with relative stability of the capital invested. The portfolio places an emphasis on cash and income securities, with a relatively minor exposure to property and equities, providing additional income and some potential for modest capital growth. In general this product could suit an investor who is concerned about potential for fluctuations in their capital but does not require a guarantee on the capital, and who has a need for regular income but understands that there could be fluctuations in the amount of income received.
Capital Preservation	Green	
Capital Guaranteed	Red	
Income Distribution	Green	
Consumer's intended product use (% of Investable Assets)	TMD Indicator for product	Product description including key attributes
Solution/Standalone (75-100%)	Green	The product is considered diversified with exposures to multiple asset classes, country exposures and asset issuers. The product primarily seeks exposure to Income Securities and Cash, with relatively minor exposure to Australian Equities, International Equities, Property, High Yield Income Securities, through access to both domestic and internationally listed securities.
Core Component (25-75%)	Green	
Satellite/small allocation (<25%)	Green	
Consumer's investment timeframe	TMD Indicator for product	Product description including key attributes
Short (\leq 2 years)	Red	

Consumer Attributes [A description of the likely objectives, financial situation and needs of the class of consumers in the target market]	TMD Indicator for product	Product description including key attributes [A description of the product, including its key attributes, i.e., product terms, features and attributes that affect the TMD]
Medium (2-7 years)	Green	The product is suitable for consumers with a Medium term investment timeframe, with a recommended minimum investment timeframe of at least 2 years
Long (> 8 years)	Green	
Consumer's Risk (ability to bear loss) and Return profile	TMD Indicator for product	Product description including key attributes
Low	Green	The product is low risk in nature, seeking to minimise potential losses and achieve a consistent income return with modest potential for capital growth. A consumer could expect negative returns every 10.3 years, with potential one year negative returns of -5% (1 in 10 years) and -13% (1 in 40 years) N.B. Implemented Portfolios Pty Limited has used an internal risk measurement process for the purposes of this description which uses back-tested data on the proprietary asset allocation and investment methodology. This aligns with the disclosures in the MDA Contract. The Standard Risk Measurement (SRM) method has therefore not been used for this product description.
Medium	Amber	
High	Red	
Very High	Red	
Consumer's need to withdraw money	TMD Indicator for product	Product description including key attributes
Daily	Green	The product permits withdrawal requests daily as facilitated by the relevant account administrator. These are actioned within a reasonable timeframe and can generally be paid out with a number of days given the predominate use of listed and liquid assets with the model.
Weekly	Green	
Monthly	Green	
Quarterly	Green	
Annually or longer	Green	
Consumer's Other requirements	TMD Indicator for product	Product description including key attributes

Individual tax management of investments*	Green	Via their External Financial Adviser the product allows the consumer the ability to instruct on the management of their individual tax position.
Visibility / transparency of portfolio holdings	Green	The product allows consumers full transparency and clear understanding of the assets held within the portfolio.
Ability to customise portfolio or accommodate other holdings*	Green	Via their External Financial Adviser the product allows the consumer the ability to instruct on specific inclusions or exclusions to their portfolio including individual assets and asset classes, or to manage individual preferences such as ESG considerations.
Ability to include <i>in specie</i> transfer of existing investments	Green	The product permits consumers to in specie transfer existing investments, subject to requirements of the relevant administrator and custody provider, and to provide an instruction via their External Financial Adviser on how the assets are to be treated; for example by incorporating them into the portfolio over time, correlated with a model holding or reserved from trading.

* Not available for the product accessed by consumers through the Panorama platform or Centuria structure given functionality restrictions

Appropriateness

The Issuer has assessed the product and formed the view that the product, including its key attributes, is likely to be consistent with the likely objectives, financial situation and needs of consumers in the target market as described below, as the attributes of this product in Column 3 of the table above are likely to be suitable for consumers with the attributes identified with a green TMD Indicator in Column 2.

Distribution conditions/restrictions

Distribution Condition	Distribution Condition Rationale	Applicable
Only suitable for distribution to consumers who have received personal advice	The product is only made available to those consumers who have received personal advice from an External Financial Adviser with whom Implemented Portfolios has a current Distribution Agreement.	<input checked="" type="checkbox"/>
